

# KASIM AJMAL JIRAR K

Entry-Level Data Analyst | Business Analyst

**Email:** kasimajmaljirar17@gmail.com | **LINKEDIN** | 24/01/2003 |

Ph.no: 9894468965

## OBJECTIVE

---

Entry-Level Data Analyst with hands-on experience in SQL, Python, Excel, and Power BI. Skilled in data cleaning, data validation, dashboard development, and business reporting. Experienced in transforming raw datasets into actionable insights through analytics projects. Seeking a Data Analyst or Business Analyst role to support data-driven decision-making.

## PROJECTS

---

### 1. Omnichannel Retail Sales and Inventory Analytics Dashboard:

- Developed an end-to-end retail analytics solution integrating online and offline sales transaction data.
- Cleaned and preprocessed data by fixing timestamps and removing outliers.
- Used SQL to analyze sales performance, inventory movement, revenue trends, and customer purchasing patterns.
- Created interactive Power BI dashboards to monitor Total Sales, Average Revenue per Order, Product Category Performance, and City-wise Order Volume.
- Performed time-series analysis to identify seasonal trends, peak sales hours, and high-demand periods.
- Delivered actionable insights for inventory planning and marketing optimization through KPI-driven reporting.

### 2. Travel, Tourism & Hospitality – Customer Retention and Dynamic Pricing Analysis

- Analyzed historical hotel booking data to identify factors influencing customer cancellations and revenue Performance.
- Performed Exploratory Data Analysis (EDA) using Pandas, NumPy, Matplotlib, and Seaborn to uncover booking behavior patterns and seasonal demand trends.
- Built customer segmentation models to classify travelers based on booking characteristics and cancellation risk.
- Conducted statistical analysis on Average Daily Rate (ADR), lead time, deposit type, and customer segments to identify churn drivers.
- Developed predictive models using Logistic Regression to estimate booking cancellation probability.
- Created interactive dashboards visualizing seasonal pricing trends, booking volume, and cancellation metrics to support revenue optimization decisions.

## TECHNICAL SKILLS

---

- **Programming:** Python (Pandas, NumPy, Matplotlib)
- **Database:** SQL (Joins, Subqueries, Aggregations, Views)
- **Tools:** Power BI, MS Excel, MySQL, VS Code
- **Data Analysis:** Data Cleaning, Data Validation, Reporting, Trend Analysis
- **Visualization:** Power BI Dashboards, KPI Reporting

## EDUCATION

---

### 1. Master Of Computer Applications

Hindusthan College of Engineering and Technology      2023 – 2025

### 2. Bachelor Of Computer Science

Sadakathullah Appa College      2020 – 2023

## CERTIFICATIONS

---

- **Data Analyst Intern - Infotact Solutions:** Completed a 3-month Internship with hands-on experience in Data Analyst.
- **Kaggle – Python Coder** | November 2025: Earned by demonstrating Python proficiency in coding challenges.
